About the 6th Lithium Supply & Markets Conference

Industrial Minerals Events sponsors the 6th Lithium Supply & Markets Conference. Taking place 20-22 May, 2014 in Montreal, it is the event for anyone who is interested in the lithium markets. The last few years have been difficult for anyone involved in the junior miner/exploration space but lithium is still a valuable commodity and there has been plenty happening in the market. With a number of mergers and acquisitions having taken place and companies such as Tesla announcing their intention to build a lithium ion battery plant there is plenty to be discussed at the conference this year.
